<b>I. Opening Address.....</b>	<i>vii</i>
<b>II. Abstracts of Presented Papers</b>	
<b><i>General Presentations</i></b>	
The regime concept and recent changes in Pacific salmon abundance R. BEAMISH, D. NOAKES, G. MCFARLANE, and J. KING .....	1
What happened to Pacific salmon in the North Pacific Ocean during the years of an El Niño event? Yukimasa ISHIDA, Tomonori AZUMAYA, Soto-o ITO, Yasuhiro UENO, and Kiyoshi WAKABAYASHI .....	4
Cyclic climate changes and Pacific salmon stock fluctuations: A possibility for long-term forecasting Leonid B. KLYASHTORIN .....	6
Influence of the 1990 ocean climate shift on British Columbia steelhead ( <i>O. mykiss</i> ) and coho ( <i>O. kisutch</i> ) populations D.W. WELCH, B.R. WARD, B.D. SMITH, and J.P. EVESON .....	8
<b><i>Pink and Chum Salmon Production</i></b>	
Inter-annual dynamics of pink salmon abundance in the Sea of Okhotsk populations in the 1990s V.I. RADCHENKO .....	11
Changes in abundance of far east pink salmon ( <i>Oncorhynchus gorbusha</i> ) stocks in the context of climatic variability in the North Pacific region A.S. KROVNIN .....	14
Long-term and spatial correlations between survival rates of pink salmon ( <i>Oncorhynchus gorbusha</i> ) and sea surface temperatures in the North Pacific Ocean Tomonori AZUMAYA, Yukimasa ISHIDA, Yasuhiro UENO, and Kiyoshi WAKABAYASHI .....	16
The importance of early marine growth to interannual variability in production of southeastern Alaska pink salmon James M. MURPHY, Herbert W. JAENICKE, AND Edward V. FARLEY, JR. ....	18
Primorye pink salmon growth at high and low abundance O.S. TEMNYKH .....	20

Ocean distribution, feeding ecology, and return of Pacific salmon in the 1997 El Niño event year Masahide KAERIYAMA, Shigehiko URAWA, Masa-aki FUKUWAKA, Katherine W. MYERS, Nancy D. DAVIS, Shogo TAKAGI, Hiroshi UEDA, Kazuya NAGASAWA, and Yukimasa ISHIDA ..... 22

***Sockeye Salmon Production***

How related are environmental sources of variation for British Columbia and Alaska sockeye salmon? Randall M. PETERMAN, Brian J. PYPER, Michael F. LAPOINTE, Milo D. ADKISON and Carl J. WALTERS ..... 25

The collapse of the rivers inlet sockeye fishery: The case against a freshwater cause S.M. McKINNELL, C.C. WOOD, D.T. RUTHERFORD, K.D. HYATT, and D.W. WELCH ..... 27

Historical trends in rate of fishing and productivity of Bristol Bay and Chignik sockeye salmon Douglas M. EGGERS ..... 30

***Zooplankton Biomass/Primary Productivity***

Hydrography and zooplankton off the central Oregon coast during the 1997-1998 El Niño event William T. PETERSON, Michael SCHIEWE, Ed CASILLAS, Bob EMMETT, AND Kym JACOBSON ..... 32

Long-term changes in climate, zooplankton biomass in the western North Pacific, and abundance and size of east Sakhalin pink salmon Kazuya NAGASAWA ..... 35

Forage base and feeding of Pacific salmon in the sea V.I. KARPENKO, L.V. PISKUNOVA, and M.V. KOVAL .... 36

Abiotic and biotic factors influencing food habits of Pacific salmon in the Gulf of Alaska Kerim AYDIN ..... 39

***North Pacific Ocean Variations***

The state of the N.E. Pacific Ocean January-June 1997 Howard FREELAND ..... 41

Ecosystem anomalies in the eastern Bering Sea during 1997 J.D. SCHUMACHER, P.J. STABENO, N.A. BOND, and J.M. NAPP ..... 44

Ocean variations along the eastern Gulf of Alaska due to ENSO Steven D. MEYERS, Arne MELSOM, and James J. O'BRIEN ..... 47

**III. Workshop Review ..... 49**
