I. Opening Remarks ..... *vii*

II. Abstracts of Presented Papers

Oral Presentations

I. Otolith Marking Technologies

An overview of otolith thermal marking
Eric C. VOLK and Peter HAGEN 1

The dry method of otolith mass marking
Alexander ROGATNYKH, Elena AKINICHEVA, and Boris SAFRONENKOV 3

Otolith marking with fluorescent substances at eyed-egg stage of chum salmon
Hiroshi KAWAMURA, Satoshi KUDO, Mahito MIYAMOTO, and Mitsuhiro NAGATA 6

Marking salmonids with strontium chloride at various life history stages
Steve L. SCHRODER, Eric C. VOLK and Peter HAGEN 9

Development of a new stock discrimination tool for naturally spawning sockeye salmon (*Oncorhynchus nerka*) within Alberni Inlet from stable isotopic composition of otoliths
Wilfred LUEDKE and Yongwen GAO 11

Compiling and coordinating salmon otolith marks in the North Pacific
Shigehiko URAWA, Peter T. HAGEN, David MEERBURG, Alexander ROGATNYKH, and Eric VOLK 13

II. Applications of Otolith Marking

Early marine growth and habitat utilization of two major southeastern Alaska chum salmon stocks, based on thermally marked otoliths recovered 1997-2000
Joseph A. ORSI, Donald G. MORTENSEN, Diana L. TERSTEEG, and Rick FOCHT 16

Application of otolith thermal mass marking in British Columbia, Canada
Brent HARGREAVES, Wilf LUEDKE, and Jeff TILL 19

Variations in catch per unit effort of thermally marked pink and chum salmon juveniles in the Gulf of Alaska during 1996 and 1998 in relation to adult hatchery salmon returns
Edward V. FARLEY, Jr., Peter T. HAGEN, and John H. HELLE 23

High-seas ocean distribution of Alaskan hatchery pink salmon estimated by otolith marks
Morihiko KAWANA, Shigehiko URAWA, Peter T. HAGEN, and Kristen M. MUNK 27

Estimating the abundance and distribution of locally hatchery-produced chinook salmon throughout a large river system using thermal mass-marking of otoliths
Kit RAWSON, Curtis KRAEMER, and Eric VOLK 31

Using thermally-marked otoliths to aid the management of Prince William Sound pink salmon
Timothy L. JOYCE and David G. EVANS 35

Use of thermal mark technology for the in-season management of transboundary river sockeye fisheries
Kathleen A. JENSEN and Patrick A. MILLIGAN 37

Use of otolith marking for evaluation of hatchery output efficiency
Elena AKINICHEVA and Alexander ROGATNYKH 39

Poster Presentations

Otolith marking at Kamchatka salmon hatcheries
Nickolay A. CHEBANOV and Marina A. KUDZINA 42

Alaska Department of Fish and Game Otolith Marking and Recovery Program
J. Ryan SCOTT, Ron P. JOSEPHSON, Peter T. HAGEN, Beverly A. AGLER, and Joseph W. CASHEN 45

Wandering pink salmon: 1999 and 2000 thermal mark recoveries in southeast Alaska
Beverly A. AGLER, Peter T. HAGEN, J. Ryan SCOTT, Joseph W. CASHEN, and Don MORTENSEN 47

III. Workshop Review 51

APPENDIX 1 – Program of the Workshop 53

APPENDIX 2 – List of Participants 55
