Doc. 502

Rev.

LIST OF PAPERS PRESENTED AT THE  
NINTH ANNUAL MEETING OF THE  
NORTH PACIFIC MARINE SCIENCE  
ORGANIZATION (PICES), OCTOBER 20-28,  
2000 IN HAKODATE, JAPAN

by  
**North Pacific Marine Science Organization  
(PICES)**

c/o Institute of Ocean Sciences  
P.O. Box 6000  
Sidney, B.C.  
Canada V8L 4B2

Submitted to the

**North Pacific Anadromous Fish Commission**  
by the  
North Pacific Marine Science Organization

October 2000

THIS PAPER MAY BE CITED IN THE FOLLOWING MANNER:

North Pacific Marine Science Organization. 2000. List of Papers Presented at the Ninth Annual Meeting of the North Pacific Marine Science Organization (PICES), October 20-28, 2000 in Hakodate, Japan. (NPAFC Doc. 502), North Pacific Marine Science Organization (PICES), c/o Institute of Ocean Sciences, P.O. Box 6000, Sidney, B.C., Canada V8L 4B2. 24p.

The PICES IX Annual meeting was held in Hakodate, Japan from October 20-28, 2000. Below is a list of primary authors and papers presented at the meeting that might be of interest to NPAFC researchers.

## List of Papers for PICES IX

### Session: CCCCpaper

Last Name	First Name	Paper Title	Paper Number
Coyle	Kenneth O.	Cross-shelf distribution of acoustically determined biomass and zooplankton density relative to major hydrographic features on the northern Gulf of Alaska shelf (initial observations on the GLOBEC long term observation program)	CCCCp050
Lu	BeiWei	Cross-shore separation of adult and juvenile euphausiids in a shelf-break alongshore current	CCCCp150
Napp	Jeffrey M.	Zooplankton of the southeast Bering Sea shelf: are there differences in biomass or community structure among recent decades?	CCCCp169
O'Maoileidigh	Niall	Summary of the ICES Working Group on North Atlantic Salmon	CCCCp343
Tsuda	Atsushi	Comparative study on the life histories of <i>Neocalanus cristatus</i> , <i>N. plumchrus</i> , <i>N. flemingeri</i> and <i>Eucalanus bungii</i> in the subarctic Pacific	CCCCp257

### Session: FISpaper

Last Name	First Name	Paper Title	Paper Number
Aydin	Kerim Y.	ENSO- and regime-scale variation in the biogeography of Gulf of Alaska micronekton as a driving mechanism for observed growth trends in Pacific salmon	FISp297
Borisovets	E.E.	Chorological structure of gray sea urchin at the northwestern coast of Japan Sea and the possible mechanisms of its formation	FISp023
Chen	Houng-Yung	Pelagic anchovy did not feed on lower the food chain in the upwelling of the East China	FISp038
Chernoivanova	Ludmila A.	Influence of solar activity and climate changes on <i>Wachna</i> cod reproduction in Peter the Great Bay	FISp043
Davidova	Svetlana V.	Early ontogenesis of fishes, understanding of the mortality nature	FISp056
Davidova	Svetlana V.	Peculiarities of the <i>Engraulis japonicus</i> spawn in Peter the Great Bay in 1988-1998	FISp055
Dulepova	Elena P.	Trophic relations of pink ( <i>Oncorhynchus gorbusha</i> ) and chum salmon ( <i>O. keta</i> ) juveniles in the epipelagic layer in the southern Okhotsk Sea in fall-winter	FISp061

Glebov	I.I.	Trophic relations of chinook and coho salmon in the Sea of Okhotsk	FISp074
Iida	Kohji	Multimedia observation of fish resource and environment using satellite, acoustics and ROV remote sensing	FISp094
Izmyatinsky	Denis V.	Species composition and abundance of fishes in Amursky Bay (Japan Sea)	FISp103
Kim	Sen-Tok	Winter diet structure of shelf fishes in eastern slope waters of the Tatar Strait, Sea of Japan	FISp120
Kim	Yeong Hye	A Genetic Analysis of the Common Squid, <i>Todarodes pacificus</i> in Korean Waters	FISp121
Konishi	Kenji	Distribution and abundance patterns of two larval anisakine nematodes in walleye pollock collected off the Pacific coast of Hokkaido, Japan	FISp131
Matsushita	Yukiko	The homing migration of lacustrine masu salmon, <i>Onchorynchus masou</i> , in Lake Toya	FISp154
Moukhametov	I.N.	Fry of fishes of coastal waters of Gulf of Terpenia (Sakhalin Island) in June 1992	FISp162
Nakata	Hideaki	Spatial and temporal distribution of short life-span squid and fish inferred from diving behavior of Pacific bluefin tuna	FISp166
Nobetsu	Takahiro	North Western Pacific Spawning and Feeding Areas of Threadfin Hakeling, <i>Laemonema</i>	FISp175
Pushchina	O.I.	The size and composition of daily ration of the atca mackerel <i>Pleurogrammus azonus</i> in Primorye coastal waters (Japan Sea)	FISp197
Rigby	Robin P.	Does RAPT (Radio Acoustic Positioning Telemetry) tagging change spawning behaviour, a chokka squid experiment?	FISp201
Savin	Andrew B.	Spatial distribution of Pacific cod ( <i>Gadus macrocephalus</i> ) and Arctic cod ( <i>Boreogadus saida</i> ) in the Olutorsky Gulf of the Bering Sea	FISp219
Schweigert	Jake	Spectral and time series analysis of British Columbia Pacific herring recruitment in relation to environmental variables	FISp223
Shin	Hyeon Ok	A data processing of the sea bottom shape	FISp230
Soukhin	Igor Yuryevich	Peculiarities of seasonal dynamics of feeding of Black Sea urchin <i>Strongylocentrotus nudus</i>	FISp236
Suyama	Satoshi	Annual change of the size in each year class of Pacific saury ( <i>Cololabis saira</i> ) estimated based on the hyaline zone in the otolith	FISp244
Won	Sungjae	Development of fishing gear materials and accessories database software	FISp271
Yanagimoto	Takashi	The interannual changes of biological characters on walleye pollock, <i>Theragra chalcogramma</i> , in the Aleutian Basin of the Bering Sea	FISp279

Zhang	Chang Ik	Stock assessment of the Korean scallop <i>Chlamys farreri</i> in the adjacent waters around Wando, Korea	FISp288
-------	----------	--	---------

Zhang	Chang Ik	A study on the multi-species assessments in Korean fisheries	FISp290
-------	----------	--	---------

**Session: MEQpaper**

<b>Last Name</b>	<b>First Name</b>	<b>Paper Title</b>	<b>Paper Number</b>
Agafonova	Irina G.	Influence of TBT on physiological status of fish liver hepatocytes	MEQp003
Aminin	Dmitry L.	Effect of organotins, TBT and TPHT, on flatfish liver hepatocytes in in vivo experiment	MEQp005
Andreeva	Valentina V.	Characterization of plankton in area of Piltun-Astokh oil and gas field (northeast of Sakhalin Shelf)	MEQp007
Coil	John A.	Ecological Monitoring at the Piltun-Astokh area, NE Sakhalin Island Shelf	MEQp048
Grajeda-Munoz	Mario M.	Geochemical associations of elements in sediments from a coastal lagoon, adjacent to a salt producing facility	MEQp303
Gramm-Osipov	Lev M.	Influencing of sorption processes on a accumulation of cobalt and mercury on marine suspended matter	MEQp076
Johnson	Lyndal L.	PAH exposure levels associated with injury in marine fish	MEQp106
Naidu	Sathy A.	Mercury and heavy metals in muscles of adult salmon ( <i>Oncorhynchus</i> spp.) from the rivers of the East Bering Sea, Alaska	MEQp164
Oh	Jae Ryoung	Biomonitoring study with physiological biomarkers using fluorescent molecular probes in oyster, <i>Crassostrea gigas</i> , transplanting experiments	MEQp180
Shaposhnikova	Tatyana V.	Interannual variabilities in the reproductive strategy of <i>Laminaria japonica</i> (aresch) (phaeophyta), Japan Sea	MEQp226
Shumilin	Evgueni	New data on the anomalous trace element composition of coastal sediments near the copper mining district (Santa Rosalia, B.C.S., Mexico)	MEQp233
Sol	Sean Y.	Relationship between oil exposure and reproductive parameters in fish collected following the Exxon Valdez oil spill	MEQp235
Wang	Yunlong	Effects of dredging suspended mud on the larval development and molt of Chinese crab <i>Eriocheir sinensis</i>	MEQp264

Wang	Yunlong	Effects of dredging sediment mud in the Changjiang estuarine area on the spawning and embryonic development and Zn ion to the toxicity of the larval development of the Chinese crab <i>Eriocheir sinensis</i>	MEQp262
Xu	Zhaoli	Studying on impact of suspended sands of dredging mud on growth of two species of phytoplankton in Changjiang River estuarine area	MEQp273
Xu	Zhaoli	The study on assemblage density of copepod dominants in plume front zone of Changjiang River estuarine area	MEQp275
Xu	Zhaoli	The impact of suspension from Changjiang dipping out and suspended mud liquid on	MEQp274
Yang	Dong Beom	Distribution of organophosphorus pesticides in some estuarine environments of Korea	MEQp280

### Session: POCpaper

Last Name	First Name	Paper Title	Paper Number
Budaeva	Valentina D.	Typification of water circulation structure in Sakhalin Bay	POCp030
Danchenkov	Mikhail A.	Branch of subarctic front in the Japan Sea and south-eastward current along it	POCp053
Figurkin	A.L.	Okhotsk Sea shelf and slope waters circulation in cold seasons of the year	POCp064
Fukamachi	Yasushi	Long-term mooring measurement off the east coast of Sakhalin in the Sea of Okhotsk Part II: Water properties	POCp066
Gladyshev	Sergey V.	Formation distribution and seasonal variability of the cold Okhotsk Sea intermediate water	POCp324
Itoh	Motoyo	Isopycnally averaged climatology for the Okhotsk Sea	POCp099
Kato	Akie	Seasonal and interannual changes of SST in the Okhotsk Sea and adjacent areas	POCp114
Krapivin	Vladimir F.	Synthesis of environmental data for the Okhotsk Sea with application of other subarctic	POCp133
Kuzin	Victor I.	Sensitivity of model circulation of the Sea of Japan (East Sea) to grid resolution and external forcing	POCp135
Luchin	Vladimir A.	Interannual variability of water temperature in the Japan (East) Sea	POCp151
Ma	Yan	Study of typhoon sea surface wind and Its ecological impacts	POCp328
Man'ko	Alexander N.	Large-scale variability of water circulation in the northwest Pacific in 1981-1991	POCp152

Mizuta	Genta	Long-term mooring measurement off the east coast of Sakhalin in the Sea of Okhotsk Part I: flow field	POCp158
Ohshima	Kay I.	Near-surface circulation and tidal currents of the Okhotsk Sea observed with the satellite-tracked drifters	POCp182
Petrov	A.G.	Hydrological processes in cold period of year in the Tatar Strait	POCp340
Petruk	V.M.	Interannual variability of hydrological situation in the northwest part of Bering Sea	POCp192
Ponomarev	Vladimir	The "subarctic gyre" in the Japan (East) Sea: new observation evidence and current system simulation	POCp196
Ro	Young Jae	Monthly circulation patterns in the East China Sea and the Yellow Sea based on the current vectors estimated by P-vector method	POCp203
Ro	Young Jae	Interactions of EKWC, NKCC with mesoscale eddies in the East (Japan) Sea	POCp202
Rykov	Nikolay A.	Seasonal variability of temperature/salinity structure on repeated sections in the Sea of	POCp210
Saveliev	A.V.	Long-term variability of a thermal regime in the Tsushima Current zone as response to global climate changes	POCp218
Shevchenko	George V.	Preliminary results of direct measurements of the currents in the La Perouse (Soya) Strait	POCp227
Shimizu	Ikutaro	Does sea ice bring high primary production in early spring?	POCp229
Tanaka	Iori	A method to monitor the total volume transport of the Soya Warm Current using coastal sea level data	POCp249
Zhigalov	I.A.	Seasonal variation of the dichothermal Layers in the northern part of the Okhotsk Sea from May to October	POCp291
Zuenko	Yury I.	Upwelling/downwelling in Peter the Great Bay (Japan Sea): implication for cross-shelf	POCp293

### Session: S1-SB

Last Name	First Name	Paper Title	Paper Number
Beamish	Richard J.	Searching for the mechanism that links coastal and mid-ocean ecosystems	S1-017
Belayev	Vladimir A.	Variations in the nekton community of subarctic and transitional waters in the Northwest Pacific (1974-1999)	S1-019
Brodeur	Richard D.	An east-west comparison of the coastal epipelagic nekton of the North Pacific Ocean	S1-028

Budaeva	Valentina D.	1981-1991 variability of thermal fields and thermohaline water structure of the Kuroshio and Oyashio currents	S1-031
Crawford	William R.	Anomalies of the 1990s along the Pacific Canadian continental shelf, and exchange with the Gulf of Alaska	S1-051
Haidvogel	Dale B.	Interannual variability of inter-gyre exchanges in the North Pacific	S1-320
Hermann	Albert J.	Local and remote influences on cross-shelf transport in the Coastal Gulf of Alaska	S1-321
Howell	Evan A.	Using ecospace to model mesoscale variability of the transition zone chlorophyll front in the North Pacific Ocean	S1-086
Ivanov	A.N.	The fish community of pelagial in the subarctic front of the northwest Pacific	S1-100
Kaeriyama	Masahide	Comparison of feeding ecology of Pacific salmon in the eastern and western North Pacific	S1-108
Kantakov	Gennady A.	Subtropical alternative heat and salt advection impact to the Sea of Okhotsk ecosystem	S1-111
Kimura	Shingo	Biological production process associated with frontal disturbances of the Kuroshio and the Kuroshio Extension	S1-125
Minobe	Shoshiro	Century-scale changes of the bidecadal oscillation over the North Pacific	S1-157
Nakamura	Megumi	Feeding ecology and trophic dynamics of Pacific salmon in the Gulf of Alaska	S1-165
Novikov	Yury V.	Distribution and biological characters of neon flying squid, <i>Ommastrephes batramii</i> , in relation to water structure of the south Kuril Islands region	S1-177
Polovina	Jeffrey J.	The transition zone chlorophyll front in the North Pacific and it's interaction with the subarctic gyre	S1-193
Ponomarev	Vladimir	Climate variation and change in the extratropic Asian - Pacific region in the XX Century	S1-195
Sassa	C.	Transition zone as a nursery ground of the subarctic, transitional and subtropical mesopelagic fishes in the western North Pacific	S1-217
Savinykh	Vadim F.	Species composition, biomass and distribution patterns of the pelagic fishes in the western and eastern areas of the North Pacific transition zone	S1-220
Seki	Michael P.	Spatial and temporal variability of large scale fronts: impacts on the life history and ecology of short-lived species in the central North Pacific Transition Zone	S1-224
Shevtsov	Gennadiy A.	Influence of oceanological conditions on formation of concentrations of the feeding Japanese flying squid ( <i>Todarodes pacificus</i> ) in the south Kuril region	S1-228

Stepanenko	Mikhail A.	Interannual variability of eastern Bering pollock ( <i>Theragra chalcogramma</i> ) recruitment and distribution in the period North Pacific climate shift of 1990s	S1-239
Sugimoto	Takashige	Behavior of warm streamers and surface drifters in the Kuroshio-Oyashio transition region	S1-241
Suh	Young Sang	The relationship between the ocean color from the SeaWiFS satellite and chlorophyll a, and suspended solid in the clear waters and the turbidity waters around Korean Peninsula	S1-332
Watanabe	H.	Decadal change in abundance of surface migrating myctophid fishes in the Kuroshio Region during 1957-1994	S1-267
Yatsu	Akihiko	Decadal changes in abundance of dominant pelagic fishes and squids in the northwestern Pacific Ocean since the 1970s, with notes on the impact of the large-scale driftnet fishing during 1978-1992	S1-281

### Session: S2-BIO

Last Name	First Name	Paper Title	Paper Number
Aydin	Kerim Y.	A comparison of the Eastern and Western Bering Seas as seen through predation-based food web modeling	S2-298
Bertram	Douglas F.	Zooplankton distributions and foraging locations of breeding Cassin's Auklet from Triangle Island, British Columbia	S2-020
Boltnev	Alexander I.	Regime-shift of Bering Sea ecosystem and population trends of northern fur seals on the Commander Islands	S2-022
Cass-Calay	Shannon L.	The effects of prey availability and physical variables on the recent feeding and growth rates of larval Pacific hake, <i>Merluccius productus</i> (Ayers), in the California Current region	S2-033
Furness	Robert W.	Saneel consumption by predators in the North Sea: implications for fishery management	S2-069
Hunt, Jr.	George L.	Estimates of prey consumption by marine birds in the North Pacific Ocean	S2-088
Hyrenbach	K. David	Albatross response to survey vessels: implications for studies of distribution, abundance and prey consumption	S2-090
Isono	Takeomi	Changes of skull size in steller sea lion during the 1960s-1990s	S2-097
Kato	Hidehiro	Summary of the workshop on the bases for estimating the abundance of marine birds and mammals, and the impact of their predation on other organisms	S2-334
Lindstrom	Ulf	Foraging behaviour of minke whales ( <i>Balaenoptera acutorostrata</i> ) in the southern Barents	S2-146
Napazakov	V.V.	Feeding features of gadoid fishes (Gadidae) in the western Bering Sea in summer and fall	S2-168

Ogi	Haruo	Food and feeding habits of marine birds in western region of northern North Pacific	S2-179
Orlov	Alexei M.	Feeding habits and feeding competition among large predatory fishes on the western Bering Sea continental slope	S2-185
Parrish	Julia K.	Community interactions between seabirds and coastal pelagics: starvation or satiation?	S2-188
Sydeman	William J.	Temporal variability in prey consumption by breeding seabirds in the California marine ecosystem	S2-335
Tamura	Tsutomu	Foods and feeding habits of cetaceans, and their food consumption in the North Pacific - especially western North Pacific minke whales	S2-247
Tanaka	Shino	Particle induced X-ray emission (PIXE) analysis of trace elements in teeth of northern fur	S2-248
Thomas	Gary L.	Nocturnal feeding by stellar sealions, humpback whales and seabirds on overwintering herring aggregations in PWS Alaska	S2-253
Wright	Bruce A.	Too many sharks in the nearshore waters of the eastern Gulf of Alaska?	S2-272

### Session: S3-BIOCCCC

Last Name	First Name	Paper Title	Paper Number
Alexander	Vera	The census of marine life: addressing the biodiversity and distribution of marine life	S3-004
Arai	Mary N.	Predation by fish, especially chum salmon, on North Pacific coelenterates	S3-008
Baier	Christine T.	Effects of chaetognath predation on copepod communities of the southeast Bering Sea	S3-010
Bornhold	Elizabeth A.	Interdecadal variations in the developmental timing of the copepod <i>Neocalanus plumchrus</i> (Marukawa) in the Strait of Georgia, BC	S3-024
Bragina	Irina Y.	Zooplankton communities seasonal and interannual changes in the northern part Sea of	S3-026
Brodeur	Richard D.	Increases in jellyfish biomass in the Bering Sea: Implications for the ecosystem	S3-027
Bukin	Sergey D.	Distribution of three species of larval shrimp in the Tatar Strait	S3-032
Chen	Yaqu	Study on dynamic of biomass and ecology of zooplankton in East China Sea	S3-037
Chung	Hyun-Kyoung	Seasonal succession of the genus <i>Acartia</i> (Copepoda: Calanoida) in the southwestern coastal water of Korea	S3-047
Dolganova	Natalia T.	Vertical distribution of plankton in the Japan Sea in winter and in spring	S3-058

Dulepova	Elena P.	Comparative analysis of zooplankton productional characteristics in the Bering and	S3-060
Han	Xifu	The study of digestive gut structure and enzyme activity of protease, amylase, and alkaline phosphatase of <i>Calanus sinicus</i> during summer in Yellow Sea and East Sea	S3-079
Iguchi	Naoki	Benthopelagic populations of the euphausiid <i>Euphausia pacifica</i> in the southern Japan Sea as food for pelagic fish (common mackerel)	S3-093
Iijima	Anai	Whether zooplankton community structure have changed or not in the southeastern Bering Sea shelf recently?	S3-095
Kaeriyama	Hideki	Seasonal variations in abundance and community structure of planktonic ostracods in the Oyashio Region (site H)	S3-107
Kanehisa	Toshinori	18S rDNA sequence and phylogenetic analysis of <i>Neocalanus cristatus</i>	S3-109
Kang	Jung-Hoon	Annual variation in distribution of zooplankton in the Yellow Sea, 1996-1998	S3-110
Kim	Woong-Seo	History and recent progress in zooplankton studies in Korea	S3-311
Kotori	Moriyuki	Recently observed delay in the occurrence of spring zooplankton biomass maximum in Ishikari Bay, western Hokkaido	S3-132
Lim	Donghyun	Life cycle of <i>Oithona similis</i> (Copepoda: Cyclopoida) in coastal waters of the Northwestern Pacific	S3-145
Lim	Donghyun	Biological evidence on introduction of the Kuroshio to the Yellow Sea	S3-144
Lo	Wen-Tseng	Composition and spatial variations of siphonophores (cnidaria) in the waters of northern	S3-148
Lopez Tachiquin	Luis Felipe	Marine planktonic choanoflagellates from Baja California, Mexico	S3-149
Miller	Charles B.	Review of diapause strategies in interzonally migrating copepods	S3-296
Nadtochy	Victoria V.	Change of dominant species in spring-summer plankton of Peter the great Bay (Japan Sea)	S3-163
Nakata	Kaoru	Egg productivity of three oncaea species in the Kuroshio Extension in spring	S3-167
Naydenko	Svetlana V.	Seasonal dynamics of structure and biomass of the plankton in the south Kuril region	S3-172
Nishiuchi	Koh	Interannual variabilities in abundance of <i>Sagitta elegans</i> , <i>S. scrippsae</i> , and <i>Eukrohnia hamata</i> (chaetognatha) in the central North Pacific	S3-174
Ozaki	Koji	Life cycle of the mesopelagic copepod <i>Paraeucaeta elongata</i> off Cape Esan, Hokkaido, Japan (western subarctic Pacific)	S3-186

Padmavati	Gadi	Vertical distribution and generation time of <i>Metridia pacifica</i> in the Oyashio Region, western North Pacific	S3-187
Romaine	Stephen J.	Diversity and density changes of significant taxa along the British Columbia coast from	S3-206
Soh	Ho Young	Ontogeny and phylogeny of appendages in copepodid stages of <i>tortanus derjugini smirnov</i> , 1935 (copepoda, calanoida)	S3-234
Sugisaki	Hiroya	Seasonal variation of trophic relationships between micronekton and macrozooplankton off eastern Japan	S3-243
Volkov	A.F.	Concerning the possibility of prediction of feeding base of nekton (sized structure and number of some mass species of a zooplankton)	S3-313
Wang	Rong	A review of current zooplankton studies in China GLOBEC	S3-265
Yamada	Yuichiro	The developmental pattern and maturation of the hperiid amphipod <i>Primno abyssalis</i> in the Oyashio Region, western subarctic Pacific	S3-276
Yoon	Won Duk	<i>Euphausia pacifica</i> (Euphausiacea: Crustacea) of the Yellow Sea I. Spatial distribution	S3-283
Yoon	Won Duk	<i>Euphausia pacificia</i> (Euphausiacea: crustacea) of the Yellow Sea: II. Allometric relationship	S3-306
Yu	Ok Hwan	Secondary production of <i>Synchelidium lenorostralum</i> (Crustacea, Amphipoda) in a sandy shore, southern Korea	S3-284
Zhang	Wuchang	Short time dynamics of ciliate abundance in the Bohai Sea, China	S3-286

### Session: S4-FIS

Last Name	First Name	Paper Title	Paper Number
Baytaluk	Alexey A.	Seasonal changes in the microstructure of Pacific saury, <i>Cololabis saira</i> , otoliths	S4-016
Baytaluk	Alexey A.	Pacific Saury ( <i>Cololabis saira</i> ) distribution in the north-western Japan Sea	S4-015
Bizikov	Vjacheslav A.	Long-term dynamics of school-master gonate squid <i>Berryteuthis magister</i> in the western Bering Sea	S4-021
Bower	John R.	Latitudinal body-size gradients of the squid <i>Berryteuthis anonychus</i> in the eastern North	S4-025
Cha	Bongjin J.	Development of a depth control system for model midwater trawl gear using fuzzy logic	S4-035
Cha	Hyung Kee	Reproduction and population dynamics of <i>Penaeus chinensis</i> (Decapoda: Penaeidae) on the western coast of Korea, Yellow Sea	S4-034

Choi	Young Min	Assessment and management of common mackerel ( <i>Scomber japonicus</i> ) in Korean waters, based on the relationship between recruitment and the ocean environmental factors	S4-046
Gillespie	Graham E.	The Canadian NE Pacific squid fishery, and the relationship of squid distributions to changing ocean conditions	S4-073
Hwang	Kangseok	Relationship between abundance of common squid, <i>Todarodes pacificus</i> and distribution of zooplankton affected climate changes in the East Sea of Korea	S4-089
Ishino	Kengo	Changes in year-class strength of red halibut, <i>Hippoglossoides dubius</i> , in Funka Bay	S4-096
Kawabata	Atsushi	Spatial distribution and density of Japanese common squid in the Pacific coast waters off northern Honshu determined by the acoustic survey	S4-115
Kidokoro	Hideaki	Relationship between change of spawning area and fluctuation of biomass of the Japanese common squid <i>Todarodes pacificus</i> in the Sea of Japan	S4-117
Kim	Doo Nam	Abundance of the neon flying squid, <i>Ommastrephes bartrami</i> , in the North Pacific during 1994-1998	S4-123
Kim	Jin-Yeong	Pacific anchovy population stability in the ecosystem of Korean waters using matrix population model	S4-118
Kim	Hyun Y.	Development of computer aided design and analysis software for a midwater trawl gear	S4-122
Kiyofuji	Hidetada	An interaction between horizontal structures of ocean fronts and Japanese common squid fishing ground formation in the Japan/East Sea	S4-126
Mokrin	Nickolay M.	Stock dynamics, ecology, and population structure of the Japanese flying squid, <i>Todarodes pacificus</i> , in the Japan Sea	S4-159
Mori	Ken	Community structure of epipelagic squids in the Kuroshio-Oyashio Transition Zone, western North Pacific	S4-161
Nishida	Hiroshi	Distribution and abundance of juvenile small pelagic fishes and squids in the northwestern Pacific from a midwater trawl survey, 1996-2000	S4-173
O'Dor	Ron	Can we distinguish between climatic effects on egg versus food limited recruitment?	S4-178
Sakurai	Yasunori	Annual to decadal stock fluctuation of <i>Loligo bleekeri</i> (cephalopoda: loliginidae) responses to changes seawater temperatures near the spawning grounds: effect of low temperature of the embryonic development	S4-213
Semedi	Bambang	An approach of DMSP/OLS satellite imagery and GIS technology to study on dynamics of Pacific saury migration	S4-225

Tian	Yongjun	The effects of climate/oceanic changes on population dynamics of Pacific saury ( <i>Cololabis saira</i> ) in the northwestern Pacific	S4-254
Yamamoto	Jun	Distribution of early stages of the ommastrephid squid <i>Todarodes pacificus</i> near the Oki Islands (Sea of Japan)	S4-277
Zhang	Chang Ik	Age determination and estimation of growth parameters using otoliths of small yellow croaker, <i>Pseudosciaena polyactis</i>	S4-287
Zhang	Chang Ik	Assessment of Pacific sardine ( <i>Sardinops melanosticta</i> ) stock in Korean waters, in consideration of the relationship between recruitment and the ocean environmental factors	S4-289
Zverkova	Larisa M.	Walleye pollock ( <i>Theragra chalcogramma</i> ) population organization ecological bases	S4-295

### Session: S5-POC

Last Name	First Name	Paper Title	Paper Number
Andreev	Andrey	Interannual variability in DO, nutrients and carbonate parameters of the western Subarctic Gyre intermediate water: role of physical processes	S5-006
Darnitsky	V.B.	The fragments of large-scale circulation by northern Pacific on the oceanographic and satellite surveys	S5-054
Freeland	Howard J.	Heat flux across Line-P during period January 1996 to June 1999	S5-317
Ishizaki	Hiroshi	A simulation of the NPIW circulation by a high-resolution North Pacific Ocean model	S5-329
Komatsu	Kosei	Two distinct hydrographic characteristics of intermediate water in the Kuroshio region south of Japan	S5-130
Kuzin	Victor I.	Variability of the North Pacific circulation model under the surface forcing from	S5-136
Mitsudera	Humio	Modeling of the Kuroshio and Oyashio Confluence	S5-359
Ono	Tsuneo	Possible changes in the subsurface ocean structure and mixed layer nutrient levels in the western subarctic pacific during the last decade	S5-302
Rabinovich	Alexander B.	Drifter observations of anticyclonic eddies over the Kuril-Kamchatka Trench	S5-200
Roemmich	Dean	The mean and time-varying meridional transport of heat in the North Pacific Ocean	S5-204
Salyuk	Anatoly	Exchange of deep and bottom waters in the Kurile Basin, Sea of Okhotsk, with Pacific	S5-214
Schneider	Niklas	Anatomy of decadal North Pacific variability	S5-221

Shikama	Nobuyuki	Subsurface circulation measured with PALACE and APEX floats in the Western Subarctic Region of the North Pacific	S5-322
Stuart-Menteth	Alice C.	Dynamic height variations of the Kuroshio Current system	S5-240
Suginohara	Nobuo	A series of mid-depth zonal flows in the Pacific induced by winds	S5-241
Ueno	Hiroichi	Distribution and formation of the mesothermal structure (temperature inversions) in the North Pacific subarctic region	S5-259
Zhabin	Igor A.	Modification of the intermediate water in the western subarctic gyre	S5-285

### Session: S6-POCBIO

Last Name	First Name	Paper Title	Paper Number
Bates	Nicholas R.	Physical and biogeochemical variability in the North Atlantic Ocean: perspectives from two long-term oceanographic time-series, hydrostations S (1954-present) and the U.S. JGOFS Bermuda Atlantic time-series (BATS) site (1988-present)	S6-014
Boyd	Phillip W.	The coupling between pelagic and deep water fluxes in the HNLC NE Pacific: results from bio-optical and deep-water trap time-series	S6-308
Chai	Fei	Physical-biogeochemical modeling B seasonal to decadal variability in the North Pacific	S6-036
Chen	Chen-Tung Arthur	Carbonate chemistry of the South China Sea	S6-040
Chen	Chen-Tung Arthur	Shelf vs. dissolution generated alkalinity above the chemical lysocline in the North Pacific	S6-039
Cullen	John J.	Unanswered questions concerning fertilization of the ocean for commercial purposes	S6-052
Denman	Kenneth L.	The Response of the Planktonic Ecosystem to the 1976 Climate Shift in a Coupled Ecosystem / Ocean General Circulation Model of the N. Pacific Ocean	S6-057
Emerson	Steven R.	Recent changes in the biological pump in the subtropical North Pacific Ocean	S6-062
Feely	Richard A.	Synthesis of Pacific Ocean DIC and Talk survey data	S6-063
Fukuda	Kumiko	Variability of chlorophyll a and sea ice concentration in the Okhotsk Sea as observed from satellite during 1996-1999	S6-067
Goes	Joaquim I.	Interannual variations in biological production and carbon cycling in the subarctic Pacific Ocean: the role of ENSO events	S6-075

Harrison	Paul J.	Shifts in phytoplankton species composition during recovery from iron limitation at Stn P in the subarctic NE Pacific: potential effects on carbon cycling	S6-081
Honda	Makio C.	Export flux of organic carbon in the northwestern North Pacific	S6-083
Ianson	Debby	Carbon gas exchange and export flux from the west coast of Vancouver Island, Canada: Results of 2-D model simulations	S6-091
Ito	Shin-ichi	Mechanisms of the seasonal variation of Chlorophyll on 144E observation line in the Mixed Water Region using a one-dimensional ecosystem model	S6-098
Karl	David M.	Carbon-nitrogen-phosphorus cycling at Station ALOHA	S6-112
Koike	Isao	Comparison of environmental factors controlling biological processes in the western and eastern subarctic Pacific and the Bering Sea	S6-310
Lee	Kitack	Global estimation of export production from seasonal cycles of surface water total inorganic carbon	S6-141
Leising	Andrew W.	Microzooplankton grazing functions for Pacific ecosystem models: a critical review of the assumptions	S6-142
Matear	Richard J.	Oceanic uptake of anthropogenic CO <sub>2</sub> : Present and future estimates	S6-309
Obzhirov	Anatoly	Monitoring of methane in eastern Sakhalin shelf and slope of the Okhotsk Sea	S6-337
Pena	M. Angelica	Factors influencing phytoplankton composition at shelf and deep ocean sites in the NE Subarctic Pacific	S6-190
Quay	Paul D.	Recent changes in the surface carbon budget at Stn ALOHA in the subtropical North	S6-198
Sabine	Christopher L.	Anthropogenic CO <sub>2</sub> distributions in the Pacific	S6-211
Sarma	Vedula V.S.S.	Seasonal change in effect of surface pCO <sub>2</sub> and air-sea exchange in the Arabian Sea	S6-331
Sasai	Yoshikazu	A three-dimensional model of carbon cycle in the upper layer of the North Pacific	S6-215
Shinada	Akiyoshi	Planktonic food chain dynamics in the Oyashio region, western subarctic Pacific	S6-231
Tadokoro	Kazuaki	Long term variation of Chl a concentration, zooplankton biomass, and the hydrographic structure in the Oyashio water	S6-314
Tishchenko	Pavel Yu.	Formation of carbonate concretion in methane venting area on seafloor	S6-255
Tsunogai	Shizuo	The carbonate system of the North Pacific studied with dissolved inorganic components	S6-258

Yamada	Keiko	Interannual variability of surface chlorophyll a and primary production in the Japan Sea observed by satellite remote sensing	S6-315
Yokouchi	Katsumi	Phytoplankton crop estimated from the upper mixed layer depth and light intensity in the western waters of Kyushu, Japan	S6-282
Zakharkov	S.P.	The production parameters of phytoplankton in the Japan Sea in winter and spring 2000	S6-327

**Session: S7-CCCC**

<b>Last Name</b>	<b>First Name</b>	<b>Paper Title</b>	<b>Paper Number</b>
Azumaya	Tomonori	Spatial and temporal distribution of phytoplankton, macrozooplankton, and fishes along a south-north transect in the central North Pacific Ocean and Bering Sea in summer	S7-009
Bakun	Andrew	Analytical and interpretative contexts for comparative studies of the factors controlling population dynamics and habitat selection of major fish stocks	S7-011
Barange	Manuel	The Benguela upwelling system: can we compare the responses of different GLOBEC ecosystems to physical forcing?	S7-013
Brander	Keith	North Atlantic GLOBEC programs and the development of ecosystem comparisons	S7-341
Checkley, Jr.	David M.	Time-space pattern for four indices of the abundance of zoo- and ichthyoplankton in the California Current Region	S7-304
Cole	James F.	Forecasting coho salmon survival off the Pacific Northwest	S7-049
Guo	Xuewu	Feeding of dotted gizzard shad, processing of sediment in the Bohai Sea	S7-330
Hamatsu	Tomonori	Decadal variability on the growth rate and the age of maturation of walleye pollock off the Pacific coast of Japan	S7-077
Hobday	Alistair J.	Mixed layer depth and its relationship to survival and size of coho salmon	S7-082
Hotta	Shoko	Factors affecting the growth of chum salmon in the western North Pacific revisited	S7-085
Katakura	Seiji	Otolith growth patterns of the year-classes 1978 and 1989 walleye pollock in young ages in the Bering Sea	S7-113
Kawasaki	Tsuyoshi	Regime shift and long-term variations found in tuna populations in the Northwest Pacific	S7-116
Kim	Suam	Environmental characteristics in chum salmon habitats using stable isotope contents in	S7-119

Kobari	Toru	The relationship between body size and water temperature of newcalanus copepods (crustacea: copepoda) in the subarctic Pacific	S7-127
Komatsu	Kosei	A three dimensional modeling study of the ecosystem dynamics around the Kuroshio frontal region	S7-129
Krovnin	Andrei S.	Long-term fluctuations in cod and herring stocks in the North Pacific and North Atlantic and their relation to climate variability in the northern hemisphere	S7-326
Kruse	Gordon H.	Climate fluctuations and dynamics of Alaskan crab populations	S7-134
Lawrence	Cathryn A.	Salmon population dynamics: US GLOBEC retrospective and modeling studies in the California Current ecosystem	S7-342
Martell	Steven J.	Simulating historical changes in the Strait of Georgia ecosystem using ecopath and ecoism	S7-153
McKinnell	Skip	Seabirds and sockeye salmon respond to variable and extreme ocean conditions in spring in Queen Charlotte Sound, BC	S7-155
Miller	Arthur J.	Modeling California Current system mesoscale observations: fitting physics and biology	S7-156
Noto	Masayuki	Relationship between the Japanese sardine population and sea surface temperature in the Kuroshio Extension	S7-176
Oozeki	Yoshioki	Seasonal variation of the growth and mortality of Pacific saury ( <i>Cololabis saira</i> ) larvae in the northwestern Pacific	S7-184
Pauly	D.	Mapping fisheries onto marine ecosystems: regional, oceanic and global integrations	S7-189
Perry	R. Ian	Mesoscale spatial distributions and condition of juvenile Pacific salmon and comparisons with environmental conditions off southern British Columbia during the 1990s	S7-191
Peterson	William T.	Ecosystem change in the Northern California Current -- recent shifts in copepod, euphausiid and pelagic fish abundance and species composition	S7-301
Royer	Thomas C.	Analysis of low frequency signals in the northeast Pacific coastal freshwater discharge, salinity, temperature and Salmon production using wavelet techniques	S7-208
Saito	Hiroaki	Can chaetognaths influence the fish recruitment? - theoretical approach with the prey and predator encounter model	S7-212
Sasaki	Katsuyuki	Seasonal change of primary production around Kuroshio Extension	S7-216
Shiotani	Tsuyoshi	Selective Feeding of the Calanoid Copepod <i>Calanus sinicus</i> on the Natural Microplankton Assemblage, with Special Reference to Microzooplankton	S7-232
Takatsu	Tetsuya	Dominant year-classes in brown sole <i>Pleuronectes herzensteini</i>	S7-245

Thomas	Gary L.	From GLOBEC-like research to physical-biological nowcast-forecasting in Prince William Sound, Alaska	S7-252
Wheeler	Patricia A.	El Nino related variations in nutrient and chlorophyll distributions off Oregon: causes and consequences	S7-305
Whitledge	Terry E.	Nutrient and productivity relationships to physical processes on the Gulf of Alaska Shelf	S7-270

**Session: S8-MEQWS**

<b>Last Name</b>	<b>First Name</b>	<b>Paper Title</b>	<b>Paper Number</b>
Addison	Richard F.	"Biological effects monitoring" ---what have we learned during the last twenty years?	S8-002
Bandiera	Stelvio M.	CYP1A and related measurements in English sole ( <i>Parophrys vetulus</i> ) from Vancouver	S8-012
Belan	Tatyana A.	Marine environmental quality assessment using polychaetes taxocene characteristics in Vancouver Harbour	S8-018
Chen	Jay-Chung	The Pearl River Estuary Pollution Project (PREPP), 1999-2001	S8-041
Horiguchi	Toshihiro	Contamination of organotin compounds and imposex in molluscs from Vancouver, Canada	S8-084
Je	Jong-Geel	Changes in benthic communities along a presumed pollution gradient in Vancouver Harbour	S8-336
Levings	Colin D.	Fish communities and life history attributes of English sole ( <i>Pleuronectes vetulus</i> ) in Vancouver Harbour	S8-143
Stehr	Carla. M.	PICES Vancouver Harbour Practical Workshop results: Assessment of chemical contaminant exposure and effects in English sole	S8-238
Uno	Seiichi	Oraganochlorine and polyaromatic hydrocarbon residues in English sole, <i>Pleuronectes vetulus</i> , at Vancouver Harbor	S8-360
Uno	Seiichi	Oraganochlorine and polyaromatic hydrocarbon residues in bivalves at Vancouver Harbor	S8-261
Uno	Seiichi	Lipid class and fatty acid composition of mussel, <i>Mytilus trossulus</i> , in Vancouver Harbor	S8-260
Yan	Tian	Harmful algae survey in Vancouver Harbour	S8-278

**Session: S9-MEQ**

<b>Last Name</b>	<b>First Name</b>	<b>Paper Title</b>	<b>Paper Number</b>
Abo	Katsuyuki	Effects of water exchange on the occurrence of oxygen depletion in fish farms of Gokasho Bay, Central Honshu, Japan	S9-001
Brykov	Valery A.	Mussel culture as potential source of eutrophication of coastal waters of Primorye	S9-029
Chen	Shang	Niche suitability assessment of maricultured region	S9-042
Cho	Ji-Young	Purification of growth enhancers for microalgal <i>Isochrysis galbana</i> from the seaweed <i>Monostroma nitidum</i>	S9-044
Choi	Jae-Suk	Axenic isolation procedure of the neutral spore and conchocelis from the seaweed <i>Porphyra yezoensis</i>	S9-045
Gavrilova	G.S.	Peculiarities of scallop ( <i>Mizuhopecten yessoensis</i> jay) bottom cultivation in Peter the Great Bay (the Sea of Japan)	S9-071
Gayko	Larissa A.	The use of long-term physical and statistical methods to forecast yield of mollusks on marine farms	S9-072
Han	Myung W.	Potential impact of marine pollution on harvesting of seaweed off Ulsan Bay, Korea	S9-078
Hargrave	Barry T.	Marine sediment organic matter- a consumable resource and indicator of benthic productivity affected by marine aquaculture	S9-080
Iwamoto	Robert N.	Comprehensive evaluation of risks and benefits of aquaculture in marine waters	S9-102
Je	Jong-Geel	Environmental monitoring for mariculture in Korea	S9-104
Kim	Mi-Jung	Nucleotide sequences of the partial 18S rDNA from Korean scallops	S9-124
Kochergin	I.E.	The technique of hydrometeorological scenario construction for the areas of Sakhalin shelf	S9-128
Kwon	Eun-Hee	Antifouling activity of seaweed extracts against the marine green alga and blue mussel	S9-137
Liu	Hong Bin	Present status of Chinese fishery	S9-316
Montani	Shigeru	Utilization of biological activities of capitellid polychaete for treatment of organically enriched sediment deposited on the bottom fish net pen culture	S9-160
Phillips	Michael	Concepts and experiences related to the integration of aquaculture into coastal	S9-318
Takayanagi	Kazufumi	Water quality criteria to manage sustainable aquaculture in Japan	S9-246
Zhou	Mingjiang	Recent progress in environmentally sound mariculture in China	S9-292

**Session: W1-MONITOR**

<b>Last Name</b>	<b>First Name</b>	<b>Paper Title</b>	<b>Paper Number</b>
Freeland	Howard J.	Argo - progress towards implementation	W1-065
Ichikawa	Tadafumi	Optimal measuring conditions for plankton counter	W1-092
Mundy	Phillip R.	A regional model of a long-term marine science program: Gulf Ecosystem Monitoring.	W1-323

**Session: W2-REX**

<b>Last Name</b>	<b>First Name</b>	<b>Paper Title</b>	<b>Paper Number</b>
Foy	Robert J.	Diet and feeding of juvenile Pacific herring	W2-338
Funk	Fritz C.	Abundance and historical trends of herring In Alaskan waters	W2-068
Hay	Douglas E.	Temporal comparisons of juvenile and adult growth: implications for changes in trophic conditions in shelf versus nearshore waters	W2-319
Ivshina	Elsa R.	Dynamics of Sakhalin-Hokkaido herring growth rate and zooplankton biomass along southwestern Sakhalin coast (Sea of Japan)	W2-101
Kobayashi	Tokimasa	Recent state of Japanese herring populations	W2-312
Naumenko	Nikolai I.	Historical trends of herring in the Russian North Pacific waters	W2-170
Peterson	William T.	Euphausiids as indicators of changing ocean conditions in the Oregon upwelling zone	W2-300
Rumsey	Scott M.	Modelling environmental and predation-induced variability in euphausiid recruitment: Its dependence and impact on herring trophodynamics	W2-209
Schweigert	Jake	Trends in Pacific herring populations of British Columbia	W2-222
Thomas	Gary L.	Oil, disease and fishing as factors in the multiple collapses of the Prince William Sound herring population	W2-251

**Session: W3-MODEL**

<b>Last Name</b>	<b>First Name</b>	<b>Paper Title</b>	<b>Paper Number</b>
Kishi	Michio J.	Sensitivity analysis on NEMURO	W3-388

Megrey	Bernard A.	Summary of NEMURO 2000: An International Workshop to Develop a Prototype Lower Trophic Level Ecosystem Model for Comparison of Different Marine Ecosystems in the	W3-338
Navrotsky	Vadim V.	To the physical forcing and the ways of improvements in the Nemuro-Model	W3-171
Rose	Kenneth A.	A review of the use of individual-based models as upper trophic level modeling tools	W3-207
Ware	Daniel	Coupling lower and higher trophic level models in marine ecosystems: an overview	W3-266
Werner	Francisco	Lower trophic level models in oceanic ecosystems: status of the NEMURO LTL model and suggested extensions	W3-269
Yamanaka	Yasuhiro	NEMURO Model follow up	W3-387
Zvalinsky	Vladimir I.	Coupling of different trophic levels in marine ecosystem models	W3-294

### Session: W4-BASS

Last Name	First Name	Paper Title	Paper Number
Aydin	Kerim Y.	An ECOPATH model of the eastern Subarctic Pacific (Alaskan) Gyre, with implications for development of a western Subarctic Pacific model	W4-299
Lapko	Victor V.	Modeling of the western Bering Sea ecosystem with help of ECOPATH software	W4-139
Polovina	Jeffrey J.	Investigating marine ecosystem dynamics with ecosim	W4-194

### Session: W5-IFEP

Last Name	First Name	Paper Title	Paper Number
Coale	Kenneth	Open ocean iron fertilization for scientific study and carbon sequestration	W5-344
Cochlan	William P.	The planktonic nitrogen uptake and heterotrophic bacterial response during the second mesoscale Iron Enrichment Experiment (IronEx II) in the eastern equatorial Pacific Ocean	W5-345
Crawford	William R.	Influence of Cape St. James on currents and eddies in the Gulf of Alaska	W5-346
Harrison	Paul J.	Shifts in phytoplankton species composition during recovery from iron limitation at Stn P in the Subarctic NE Pacific: Potential effects on carbon cycling	W5-347
Kudo	Isao	Comparison of iron enrichment experiments on board in the NE and NW subarctic Pacific	W5-348

Kuma	Kenshi	Characteristic vertical profiles of Fe(III) hydroxide solubility in the northwestern North Pacific Ocean	W5-349
Law	Cliff S.	The application of sf6 tracer lagrangian studies in iron fertilization experiments	W5-386
Law	Cliff S.	In situ testing of iron limitation in the southern ocean: an overview of the southern ocean iron enrichment experiment (SOIREE)	W5-392
Nishioka	Jun	The size-fraction of supplied Fe and change in the concentration of Fe in different size fraction in onboard bottle incubation experiments	W5-350
Obata	Hajime	Iron and manganese distribution in the surface waters of the North Pacific Ocean and the Bering Sea	W5-351
Price	Neil M.	Iron-siderophore receptors of heterotrophic marine bacteria	W5-361
Rue	Eden	Dissolved iron speciation in seawater	W5-352
Saitoh	Sei-ichi	East-west variability of primary production in the subarctic North Pacific derived from multi-sensor remote sensing during 1996-2000	W5-353
Thomson	Richard E.	Physical Processes Affecting the Distribution of Iron-fertilized Ocean Water in the North	W5-354
Trick	Charles G.	Fundamental differences in the iron acquisition systems among phytoplankton	W5-355
Tsuda	Atsushi	Zooplankton response to nutrient input	W5-358
Tsumune	Daisuke	Prediction of physical behavior of released iron by random walk simulation during the iron fertilization experiment in the North Pacific	W5-356
Wells	Mark L.	Fe dynamics during IronEx II: The premature loss of Fe availability within the enriched patch during the phytoplankton bloom	W5-357
Wong	C.S.	Iron distribution in the Northeast Pacific Ocean	W5-385

### Session: W6-BIOMBM

Last Name	First Name	Paper Title	Paper Number
Furness	Robert W.	Estimation of prey consumption by seabirds in the northeast Atlantic Ocean	W6-070
Hunt, Jr.	George L.	Results of the PICES Working Group 11 estimates of prey consumption by marine birds and challenges in developing estimates	W6-087
Kato	Hidehiro	Prey consumption by marine mammals: estimation by the PICES Working Group 11	W6-333

Laake	Jeffrey L.	Estimation of marine mammal and seabird abundance	W6-138
Livingston	Patricia A.	Overview of upper-trophic level models for assessing the impacts of climate and fishing on marine ecosystems	W6-147
Miyashita	Tomio	Case study - Shipboard sighting survey for marine mammals	W6-325
Ohizumi	Hiroshi	Approaches to dietary study of cetaceans and problems in the analyses of stomach	W6-181
Okamura	Hiroshi	Consideration for modeling to incorporate prey consumption by marine birds and	W6-183
Sinclair	Elizabeth H.	Case studies for stomach and scat analyses: Pinnipeds	W6-307
Spear	Larry B.	Estimating population size of seabirds at sea	W6-237
Trites	Andrew W.	Estimating prey consumption by marine mammals in the North Pacific	W6-256
Watanuki	Yutaka	Seabirds as a platform for monitoring marine environment with biotelemetry techniques	W6-268

### Session: W7-CO2

<b>Last Name</b>	<b>First Name</b>	<b>Paper Title</b>	<b>Paper Number</b>
Bates	Nickolas R.	Physical and biogeochemical variability of the marine carbon cycle in the subtropical gyre of the North Atlantic Ocean	W7-389
Chai	Fei	Modeling carbon cycle in the Pacific Ocean	W7-361
Denman	Kenneth L.	Will we have sufficient data to evaluate the performance of coupled 3-dimensional biogeochemical ocean basin models?	W7-390
Dore	John E.	Carbon cycle observations at the Hawaii Ocean Time-series Station ALOHA	W7-363
Feely	Richard A.	Synthesis of Pacific Ocean DIC and TALK Survey Data	W7-364
Fujii	Masahiko	Application of one-dimensional ecosystem model to time series station KNOT observation	W7-365
Imai	K.	Seasonal variation of primary productivity at Station KNOT (44°N, 155°E) in the North western Pacific Ocean	W7-366
Inoue	Hisayuki Y.	Temporal and spatial variations in carbonate system of the central and western equatorial Pacific during the period from 1987 to 2000	W7-367
Ishii	Masao	Net community production in the central and western equatorial Pacific evaluated from the distributions in the oceanic CO2 system	W7-370

Ishii	Masao	Net community production and its importance for the variability in pCO <sub>2sw</sub> in the marginal ice zone of the Southern Ocean south of Australia	W7-369
Ishii	Masao	Seasonal variation in total inorganic carbon and its controlling processes in surface waters of the western North Pacific subtropical gyre	W7-368
Lee	Kitack	Interannual variability in global net oceanic CO <sub>2</sub> uptake from 1982-1998	W7-140
Metzl	N.	Past, present and future CO <sub>2</sub> data in the Southern Ocean	W7-371
Mintrop	Ludger	The Atlantic Ocean CO <sub>2</sub> survey and CARINA	W7-372
Murata	Akihiko	CO <sub>2</sub> observation programs in the North Pacific and the adjacent sea by JAMSTEC	W7-391
Murphy	Paulette P.	Ocean carbon uptake in the North Pacific: First steps in designing a sampling strategy	W7-373
Nemoto	Kazuhiro	Long-term trend of pCO <sub>2</sub> in the western North Pacific	W7-374
Nojiri	Yukihiro	Biogeochemical Study at Ocean Time Series Station KNOT (44°N, 155°E) B results of 1998-2000 survey	W7-375
Oguma	Sachiko	Inventory for Japanese Chemicaloceanographic Data (IJCD)	W7-376
Ono	Tsuneo	Distribution of DIC and related properties in the North Pacific along 47°N measured in the late 1990s	W7-377
Sabine	Christopher L.	Carbon distributions in the Indian Ocean	W7-378
Shiraiwa	Yoshihiro	Regulatory aspects of the growth and CaCO <sub>3</sub> production of marine coccolithophorids by nutrient supply and temperature	W7-379
Suzuki	T.	Metadata for CO <sub>2</sub> and related oceanographic data in Japan	W7-380
Tsurushima	Nobuo	Seasonal variation of oceanic carbon dioxide species at the western sub-arctic Pacific time series site (KNOT) 1998 - 2000	W7-381
Xu	Yongfu	Sensitivity of anthropogenic CO <sub>2</sub> uptake to parameterizations of mesoscale tracer transports in a 3-D model of the North Pacific	W7-382
Zeng	Jiye	Distributions of DpCO <sub>2</sub> and CO <sub>2</sub> fluxes in the northern North Pacific: Results from a commercial vessel in 1995-1999	W7-383
Zeng	Jiye	An introduction to an oceanic CO <sub>2</sub> database for the North Pacific	W7-384
